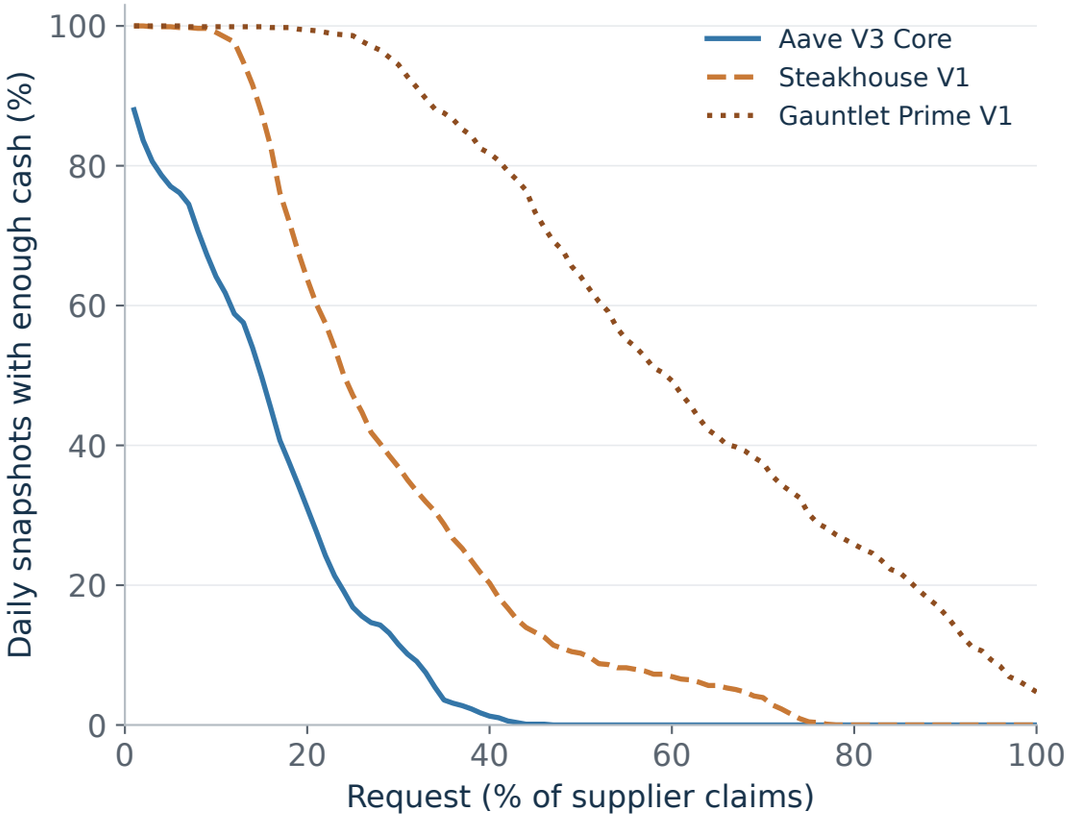
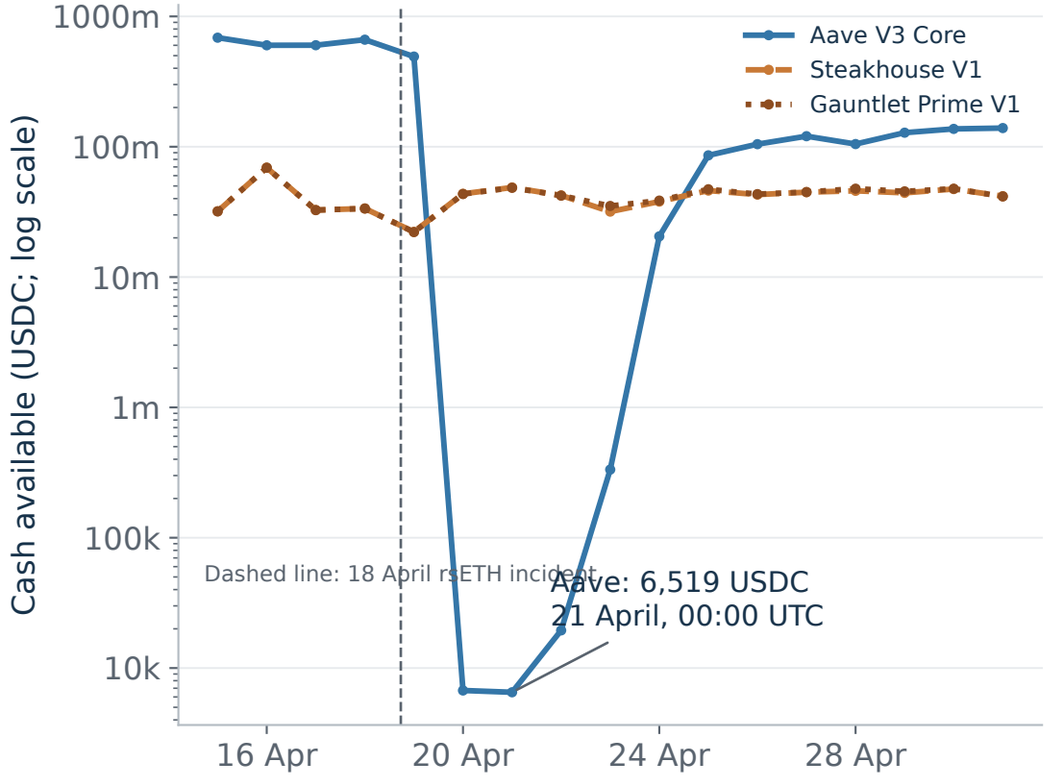
A Capacity for collective withdrawals



B April 2026 liquidity squeeze



SGOV has different frictions: market-hours trading, bid/ask spreads and normally T+1 settlement.
We do not assign it a fictional 100% on-demand cash buffer.

Sources: Ethereum reads; Aave rsETH incident report; SEC T+1 guidance. Capacity curve: 867 daily snapshots.
April zoom is exploratory. A cash shortfall is not evidence of principal loss; Morpho vaults can share underlying cash.
