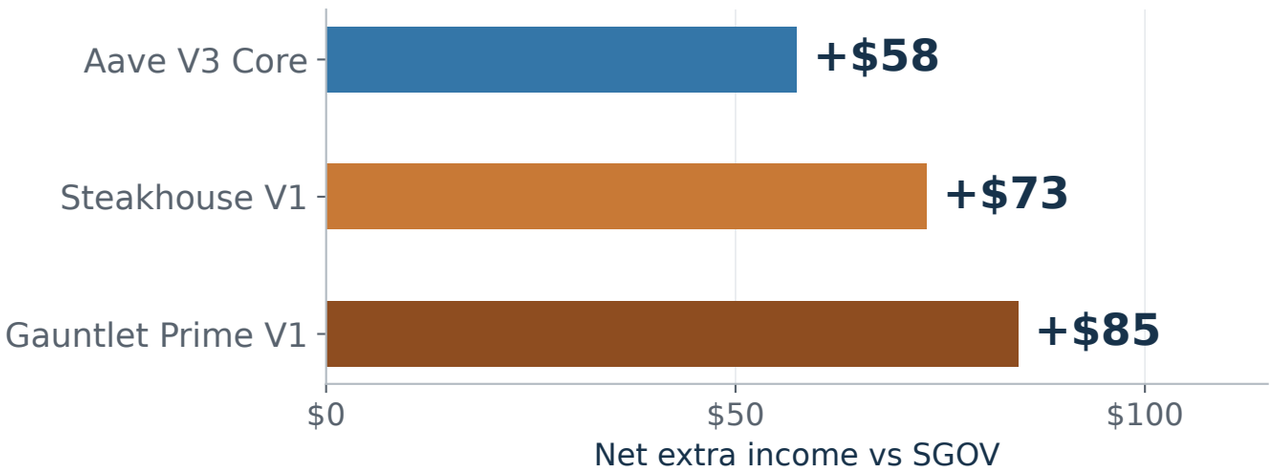
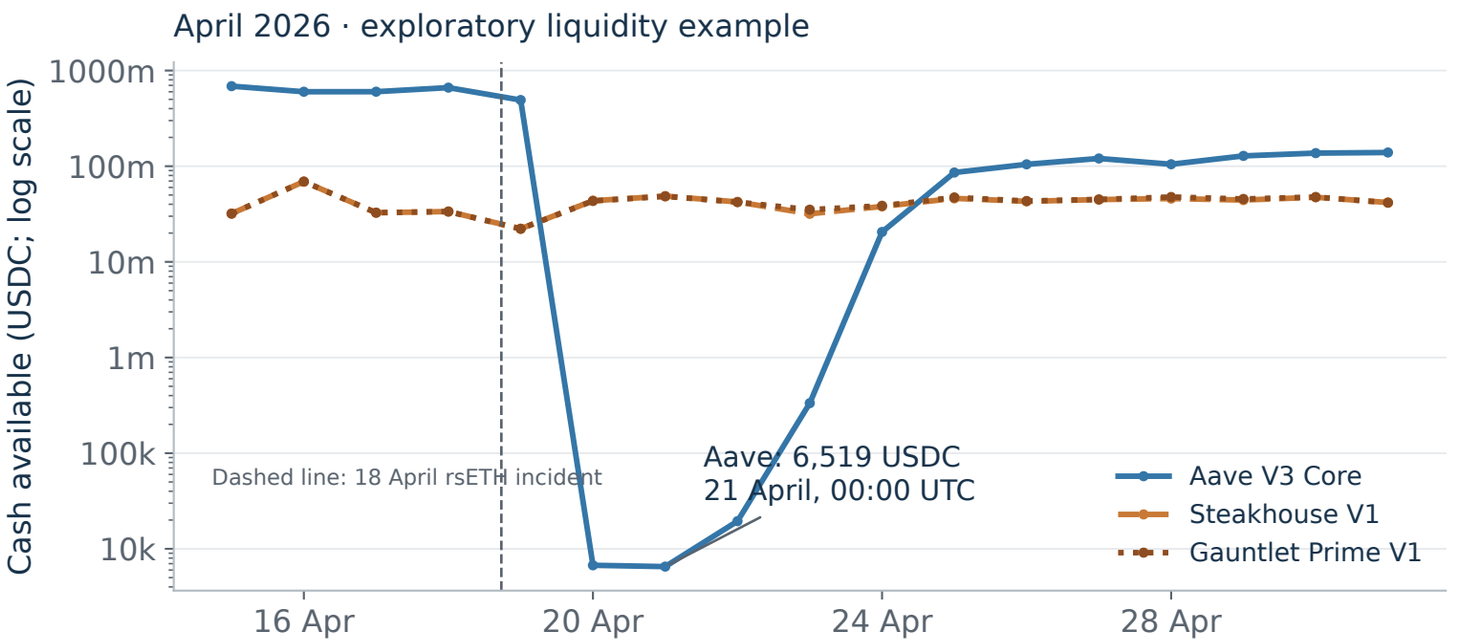
How much extra income for the liquidity risk?

$58–$85 extra per $10,000

Over 866 days, after illustrative base costs.
Compared with SGOV, a 0–3 month Treasury-bill ETF.



Interest can accrue while cash is hard to withdraw.



Cash shortage ≠ principal loss. This study does not price all risks.

1 Jun 2024–15 Oct 2026. USDC = $1 assumed; rewards and taxes excluded.
Costs per side: DeFi $10 + 5 bps; SGOV 0.5 bp. Fund/vault fees already reflected.
